INSTRUCTIONS

- Each player needs a token - you can use a piece of candy, a coin, or anything small.
- Players take turns rolling a die.
- Take turns in clockwise order.
- Move your token along the Christmas path. Each player answers one card per turn (you can answer more if you're feeling extra festive).
- The first player to reach the last space wins the game!
- You can also skip the game board and play with just the cards, asking one another questions about Christmas and things you're grateful for this year.
